

IDEA

Spacial App helps people who love astronomy discovery photos taken from space by providing an easily searchable gallery of images.

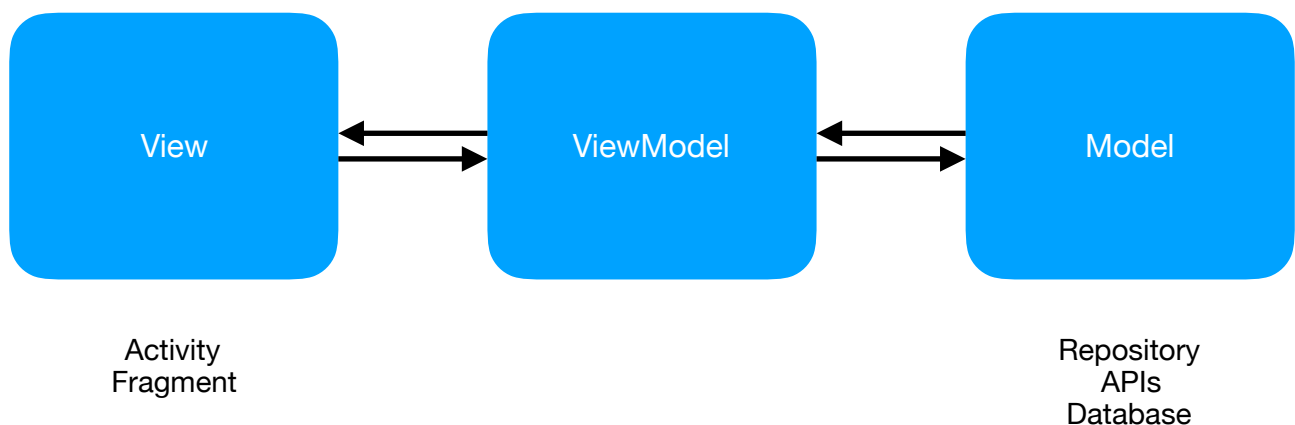

STORIES

- (1) When I open the app, I want to see a gallery of photos so I can see photos right-away.
- (2) When I want to search for specific photos, I want to see a gallery of photos based on my search criteria.
- (3) When I open a photo, I want to see the title, and its description so I know what the photo is about
- (4) When I'm interested on a specific subject, I want to bookmark my search into a catalog so I can go easily get back to it
- (5) When I open the app, I want to see all my catalogs

DESIGN

See **screens** folder

APP ARCHITECTURE

3rd-Party APIs

The app uses Nasa Image and Video Library
See <https://api.nasa.gov/api.html#Images> for more details
